Ekin BIKE PATROL

The First and Only Smart Bike
Patrol of the World

Ekin
SAFE CITY TECHNOLOGIES

Leader in Safe City Technologies

The first and only smart patrol bike of the world, which performs number plate recognition and parking enforcement on the move.

Ekin Bike Patrol is a high-tech mobile enforcement product designed for bicycles. Being suitable for any patrol bikes, Ekin Bike Patrol is aimed to bring order into the traffic and prevent the chaos caused by parking violations.

Why Bike Patrol ?

Provides Versatile Application Range

Based and designed upon the success of Ekin Patrol, Ekin Bike Patrol offers a versatile application range. The compact design allows to perform parking management and number plate recognition even at areas fixed solutions cannot control and where motored vehicles reach their limits.

International Award-Winning Plug & Play Design

Ekin Bike Patrol, as the first and only compact smart patrol bike product in the world, is compatible with any bicycle. There is no requirement for any further component to be installed or carried on the bike.

Thus, Ekin Bike Patrol turns regular police bicycles into smart patrol vehicles that can operate number plate recognition and parking management on the move.

Generates Instant Alarms

Ekin Bike Patrol can be easily integrated to an existing database and detects the vehicles specified as "suspicious" or "stolen" on the blacklist.

Also, it provides an excellent solution at the parking zones by identifying parking time, parking violations for the vehicles not registered in the parking area or incorrectly parked vehicles and generate an audial or visual alarm notification on its tablet application.

Centrally Managed by Ekin Red Eagle OS

Ekin Bike Patrol can communicate with all other Ekin solutions using the wireless communication infrastructure. Moreover, via monitoring on a digital map at the control center with Ekin Red Eagle OS, Ekin Bike Patrols can be directed to the incident scenes immediately.

FUNCTIONS

Parking Management

- ! Detection of all the number plates at parking areas
- ! Parking management ability whether Ekin Bike Patrol vehicle is on the move or parked
- ! Detection of parking time, not registered vehicles in the parking area and incorrectly parked vehicles
- ! High-resolution images of violating vehicles to use as evidence

Number Plate Recognition

- ! Automatic number plate recognition for moving or parked vehicles capability to recognize license plates correctly under night, day, adverse weather and challenging traffic conditions. High accuracy number plate recognition whether Ekin Bike Patrol vehicle is on the move or parked Identification of wanted or stolen vehicles over a specific database.

TECHNICAL FEATURES

VEHICLE DETECTION
